Macron teams up with Cameron for Russia conflict

English boys will be decimated making WW1 into a picnic. Cameron is travelling around looking for allies. Baltic States. Finland,

Daily Telegraph says the new entente is with France – an alliance between France and Britain as in WW1 and WW2. Here is Cameron trying for WW3.

French and British militaries are in no condition to take on the Russians.

UK maybe 40 tanks – maybe 20,000 men. Not a hope in hell. Yet hell it will be.

It's all hot air

Cameron is an old money, born to it, made man. A disgusting creature who should have been required to leave politics permanently after his Brexit debacle. He can wish away, but the modern Brits will not fight, not a chance

First, because the current snowflake Zoomer kids, who would be required to actually do the fighting, are completely and utterly incapable of that. They will plead mentalism and get themselves certified medically unfit. Fight Russians? Not a chance, they would run a mile and hide

Second, the Brit Army is totally and utterly incapable of fielding an effective army any time soon:
“French and British militaries are in no condition to take on the Russians.
UK maybe 40 tanks – maybe 20,000 men. Not a hope in hell. Yet hell it will be.”

Spot on. It will be hell for somebody else though certainly not for Brit conscript soldiers who might be snowflakes but aren't totally stupid

Third, the Brit economy is utterly incapable of producing the armaments and ammunition that would be required for such a war. Ukie has depleted all western stocks too, so where will the arms and ammo come from? They don't exist

The European elites have gone stark staring bonkers. They are desperate and increasingly more pathetic with each passing month. Who on earth will go to the borders of Russia to fight for these lunatics? Only certified idiots
